

TOEFL Preparation Course Spring Break Intensive

Learn TOEFL strategies from an expert!

This course is designed for students who are used to English in the classroom and have at least a 75 on the TOEFL iBT. Despite having studied abroad and being fluent speakers of English, many students find that there are barriers to reaching their TOEFL goals. What makes TOEFL so hard? The problem is that the TOEFL measures English skills you may not yet have been asked to develop in your high school classes or everyday life abroad.

The TOEFL in English course covers all four sections of the test:

- strategies for the ten question types which appear on the Reading section, as well as time management skills
- listening actively to catch the important points of the Listening section and taking effective notes during the lectures and conversations
- using your fluency advantage to ace the Speaking section
- writing strong essays for the independent and integrated Writing tasks
